DETAILED ACTION

This Office Action is in response to the communication filed on 8/2/02. Claims 1, 3-5, 7, 9-12, 23, 27, 38, 39 and 41-46 are subject to a restriction requirement. Claims 2, 6, 8, 13-22, 24-26, 28-37 and 40 are canceled. This Action is made **Non-FINAL**.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/2/02 has been entered.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3-5, 7, 9-12, 38, 39 and 44-46, drawn to a carbon material.

Art Unit: 1745

Group II, claim(s) 23, 27, 41 and 43, drawn to a method for producing a coated carbon material comprising calcining the coated carbon material.

Group III, claim(s) 42, drawn to a method for producing a coated carbon material comprising washing a coated carbon material.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed toward a carbon material (product) and Groups II and III are directed toward methods for producing the coated carbon material. Group II requires a calcining step which claim 1 (Group I) and claim 42 (Group III) do not require (lack). Group III requires a washing step which claim 1 (Group I) and claims 41 and 43 (Group II) do not require. Claim 27 (Group II) requires an oxidation step which is not required by Group I or Group III.

A telephone call was not made to request an oral election to the above restriction requirement. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

Art Unit: 1745

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
